# INFLUENZA VIRUS

PREPAREDNESS • PREVENTION • PEACE OF MIND PROTECTION

## Clean and Disinfect Regularly

Common hard non porous surfaces and items known to become contaminated with flu viruses include but are not limited to, photocopiers, phones, door handles, light switches, desks, keyboards, mouse, arm rests, hand rails, microwave ovens, tables, etc.

To help reduce the spread of flu viruses, disinfect these surfaces that are frequently touched regularly with a product registered to kill influenza viruses.

Product Code	Description	UOM

### DID YOU KNOW?

PCS cleaning processes are highly effective at cleaning to prevent the spread of antibiotic resistant bacteria. They contain no synthetic chemicals, surfactants or volatile ingredients.

Product Code	Description	UOM
PCSMF-BL	PCS Blue Microfibre cloth	each
PCSMF-G	PCS Green Microfibre cloth	each
PCSMF-R	PCS Red Microfibre cloth	each

## Personal Protection

The use of masks and gloves can be effective against spreading respiratory virus or influenza. It is important proper use of the mask is practiced otherwise it may increase the risk of infection. Masks worn for extended periods of time or not changed regularly will not act as an effective barrier against the spread of infection.

### DID YOU KNOW?

- 80% of contagious illnesses are spread by touch.\*
- The flu virus can survive on surfaces up to 48 hours.†
- The flu virus can travel up to 12 feet through the air at 100mph.\*
- Children are 2 to 3 times more likely than adults to get sick with the flu.§

\* Philip M. Tierro, Jr., Ph.D., in his book "The Secret Life of Germs."

† Hard, nonporous surfaces.

\* S.A.Boone, "The Occurrence of Influenza A Virus on Household and Day Care Center Fomites."

§ U.S. Centers for Disease Control and Prevention.

Product Code	Description	UOM

### Take Cover

For coughing and sneezing put it into your sleeve, raise your arm to your face or use a facial tissue. By practicing these covers you can help to avoid spreading the virus by keeping the infection out of the air and off surfaces.

Product Code	Description	UOM
130	Bay West Facial Tissue 30x 100/case	case
21400	Kleenex White 36x 100/case	case

**Always be sure to wash your hands after wiping or blowing your nose with a facial tissue.**

### TOP PRIORITY - Hand Hygiene

Washing your hands frequently with soap and water where available helps you in two (2) ways. One stay healthy and two prevent the spread of infection. Where sinks and hand wash facilities are not easily accessible or available, an alcohol hand sanitizer is recommended.

Product Code	Description	UOM	Dispenser
<b>Hand Soap</b>

### PANDEMIC SUPPORT

Swish will make every effort and attempt to continue to make available the necessary pandemic related supplies (i.e. masks, sanitizers, gloves, etc) as they become available and as allocated by our suppliers.

Regretfully we must apply additional control on the distribution of our limited inventory levels and make it available on a first come, first serve basis. We may find it necessary to be unable to honour requests for unreasonable quantities or guarantee the availability of future orders for the products that are in demand.

We will continue to be committed to our valued customers and do everything possible to maintain the highest and most consistent level of service under the circumstances.
