

Product Information Sheet

#7 Swish Clean & Green™ Disinfectant Concentrate

Description: Swish Clean & Green™ Disinfectant is a disinfectant, sanitizer, fungicide and deodorizer.

Uses: For Hospital, industry Swish Clean & Green™ Disinfectant is qualified for use in hospitals, nursing homes, institutions, industrial plants, schools, hotels, restaurants, stores, clubs, etc. Whenever cross contamination is of concern. For disinfecting and deodorizing of hard surfaces such as floors, walls, tables, countertops, sinks, bed frames, toilets, shower stalls, tile and grout, telephones, drinking fountains, etc.

Directions: Apply Swish Clean & Green™ Disinfectant with a cloth or mop. Treated surfaces must remain wet for 10 minutes. Fresh solution should be prepared daily or when the use solution becomes visibly dirty.

Disinfection In Hospitals, Nursing Homes And Other Health Care Institutions: For disinfecting floors, walls, countertops, bathing areas, laboratories, bed frames, tables, chairs, garbage pails and other hard surfaces, add 7 mL/L (1:143) of Swish Clean & Green™ Disinfectant to 1 litre of water. Apply to previously cleaned hard surfaces with mop or cloth. At this use level this product is effective against *Pseudomonas aeruginosa*.

Disinfection In Institutions, Industry And Schools: For disinfecting floors, walls, bed frames, countertops, tables, chairs, garbage pails, bathroom fixtures and other hard surfaces. Add 4 mL/L (1:251) of Swish Clean & Green™ Disinfectant to 1 litre of water. Apply to previously cleaned hard surfaces with mop and cloth. At 4 mL/L use level, this product is effective against *Staphylococcus aureus*, *Salmonella choleraesuis*, *Enterococcus faecalis* (Vancomycin resistant) and *Trichophyton interdigitale* (the athlete's foot fungus).

Sanitizing Of Food Processing Equipment And Other Hard Surfaces In Food Contact Locations: For sanitizing food processing equipment, dairy equipment, food utensils, dishes, silverware, glasses, sink tops, countertops, refrigerated storage and display equipment and other hard surfaces. No potable rinse water is required. Wash and rinse all articles thoroughly, then apply a solution of 2 mL Swish Clean & Green™ Disinfectant in 1 litre of water (1:501) or (150 ppm active). Surfaces should remain wet for at least 1 minute followed by adequate draining and air drying. Fresh solution should be prepared daily or when the use solution becomes visibly dirty. For mechanic application, use solution may not be reused for sanitizing applications. Apply to sink tops, countertops, refrigerated storage and display equipment and other stationary hard surfaces by cloth or brush. No potable rinse is required. Dishes, silverware, glasses, cooking utensils and other similar size food processing equipment can be sanitized by immersion in 2 mL/L solution of this product. No potable rinse is required.

Disinfection Of Barber Tools:

Precleaned barber tools (such as combs, brushes, razors, and scissors) can be disinfected by immersing in 4 mL/L solution of Swish Clean & Green™ Disinfectant.

Disinfection Of Poultry Equipment, Animal Quarters And Kennels:

Poultry brooders, watering founts, feeding equipment and other animal quarters (such as stalls and kennel areas) can be disinfected after thoroughly cleaning by applying a solution of 4 mL Swish Clean & Green™ Disinfectant in 1 litre of water with a mop, cloth or brush. Small utensils should be immersed in this solution. Prior to disinfection, all poultry, other animals and their foods must be removed from the premises. This includes emptying all troughs, racks and other feeding and watering appliances. Removal litter and droppings from floors, walls and other surfaces occupied or traversed by poultry or other animals. After disinfection, ventilate buildings, coops and other closed spaces. Do not house poultry, or other animals or employ equipment until treatment has been absorbed, set or dried. All treated equipment that will contact food or drinking water must be rinsed with potable water before reuse.
