

Industrial Liners

The Next Level of Technological Excellence in Liners

Environmental Choice Certified Product

A true indication that “less is more” these liners are certified by the Ecologo program CCD-126 for garbage bags.

Features and Benefits these bags deliver are:

- ✓ Contain post consumer material collected from **household blue box programs** as well as **post industrial-use** (consumer material) markets
- ✓ Contain degradable additives designed to disintegrate in the presence of oxygen.
- ✓ Meet government and industry safety and performance standards
- ✓ Meet requirements of Fisheries Act and the Canadian Environmental Protect Act (CEPA) for manufacture and transport
- ✓ Use non toxic inks
- ✓ Contain **post-consumer material**
- ✓ Contain **household post-consumer material**
- ✓ Unique one-at-a-time end dispensing cartons allow easy access and ease of stacking
- ✓ All cases have wrap around labels clearly identifying size and count and are colour coded relative to strength:
Pink-X Strong Green-Strong Yellow-Regular

“household post-consumer material” means material collected from curbside and depot collection programs serving individual households and apartments.

“post-consumer material” means a product which has served its end-use at the consumer level, has been discarded by the consumer, and would, unless diverted, enter the waste stream. This includes household post-consumer material

“recycled material” means post-consumer material and pre-consumer material. It does not include by-products of an industrial process that can be and regularly are, used in either the same process, or in a different process, except that proportion which originated as post-consumer material and pre-consumer material.

Swish Code Order#	C&G Code	Size	Strength	Bags/ Case	Colour	Cases/ Pallet
2652-01	2022R	20" x 22"	Regular/Régulier	500	Black	90
