

Swish E-Learning

E-Learning @Swish - Our New E-Learning Program

Let us help you select the right product for the job and get professional results.

For many years, end user training has been an important part of Swish Maintenance Limited's commitment to customer excellence and value-added services. We are proud of the fact that we are a sanitation industry leader offering high quality training programs that have been designed within our company.

Are you interested in having the opportunity to train, document and recognize your custodial staff with certificates as they successfully learn a wide variety of cleaning techniques and procedures?

E-Learning@Swish is aimed at meeting a broad range of your on-the-job learning requirements. It offers computer-based training in self-paced topic modules to meet individual learning needs and can be accessed by users at any time from multiple locations. It also provides a documented learning management solution with its individual and group progress tracking and reporting features.

Our Custodial Services Cleaning Manual on E-Learning@Swish includes the following courses:

- ✔ **Introduction to Custodial Cleaning**
- ✔ **Custodial Cleaning Basics**
(including Importance of Clean & Green and Health & Safety First)
- ✔ **Floor Maintenance**
- ✔ **Carpet Maintenance**
- ✔ **Washroom Care**

- ✔ **General and Specific Site Cleaning Procedures**
- ✔ **Blood and Bodily Fluid Cleanup**
- ✔ **WHMIS**
- ✔ **Pandemic Preparedness**
- ✔ **Custodial Cleaning Wrap-Up**
(including Tips of the Trade)

E-Learning@Swish includes detailed training in a variety of areas including cleaning techniques and equipment needed, site specific cleaning procedures, health and safety requirements, quality tips and much more! There are also quizzes for assessing learning participants' knowledge and comprehension and certificates of achievement to recognize successful completion of courses.

We are continuously developing topics in support of your training requirements.
